## Call for Papers

A Hybrid National Conference Entitled:

**"Mechanisms for Accomplishing Scientific Research: Principles, Methods, and Practices"**

Conference Days: 17-18 November 2025

Honorary President: Prof Ammar BENABED

Presidents: Dr Ali BERRABAH & Dr Moustafa TOUBIEDA

### Quotes

"Research is the process of going up alleys to see if they are blind." – Marston Bates

"After all, the ultimate goal of all research is not objectivity, but truth." – Helene Deutsch

"If we knew what we were doing, it wouldn't be research." – Albert Einstein

### Preamble/Conference Theme

The Department of English at Ibn Khaldoun University of Tiaret, in collaboration with all the departments of the faculty namely of the Arabic, French, German, and Spanish languages, is pleased to announce a **Two-Day Hybrid National Conference** entitled **"Mechanisms for Accomplishing Scientific Research: Principles, Methods, and Practices."** The conference aims at addressing the critical skills and methodologies required for conducting and presenting scientific research effectively. The event is meant to foster a deeper understanding of the research process, from topic selection to the final presentation, while equipping Master 1, Master 2 and PhD Students with the necessary tools to navigate the complexities of academic writing and research.

Drafting a research paper is a multifaceted process that involves a series of skills, each of which contributes to the development of a well-rounded academic course. From digging deeply into a topic and selecting raw data to organizing thoughts and writing with clarity, these skills are essential for producing high-quality research. The conference will emphasize the importance of these steps, including narrowing a subject, gathering and categorizing notes, creating detailed outlines, and revising work methodically. By focusing on these mechanisms, the students will gain a comprehensive understanding of how to approach research systematically and effectively.

The first day of the conference will focus on teachers' papers presentations, highlighting innovative approaches to research design, data collection, and analysis. The second day will feature workshops tailored for Master 1, Master 2 and PhD Students, providing hands-on training in essential research skills such as topic selection, proposal writing, data interpretation, and academic referencing. These workshops aim to prepare students for the challenges of dissertation writing and to enhance their ability to present their research confidently and competently.

This conference seeks to create a platform for academic dialogue and collaboration. It emphasises the importance of rigorous research practices and the dissemination of knowledge. By bringing together educators, researchers, and students, the event will explore the principles, methods, and practices that reinforce successful scientific research. Ultimately, it will contribute to the advancement of academic excellence in the field of English studies and beyond.

### Conference Objectives

The conference endeavours to prepare students and researchers to engage meaningfully in scientific research by achieving the following objectives:

1. To explore the challenges and solutions in accomplishing scientific research, focusing on the systematic process of identifying research problems, formulating research questions/hypotheses/objectives, and designing effective methodologies.
2. To clarify central concepts in scientific research and their practical application, emphasizing the importance of critical thinking, logical organization, and clarity in academic writing.
3. To provide practical training in research tools and techniques, equipping participants with the necessary skills for data collection, analysis, interpretation, and presentation.

### Day 1: Teachers' Papers Presentations

#### Tracks/Axes of the Conference

The Scientific Committee of the conference welcomes participants' abstracts on the theme, but not limited to the following tracks/axes:

1. **Accomplishing Scientific Research: Problems and Solutions**
  - Identifying and narrowing research topics
  - Overcoming challenges in data collection and analysis
  - Addressing ethical considerations in research
  - Strategies for effective time management in research projects
2. **Central Concepts in Scientific Research and Methods of Employment**
  - Theoretical frameworks and their application in research
  - Critical thinking and logical categorization of data
  - The role of reflection and speculation in research development
  - Balancing objectivity and subjectivity in scientific inquiry
3. **Systematic Process of Scientific Research**
  - Steps in writing a research paper: From topic selection to final draft
  - Organizing and categorizing research notes effectively
  - The importance of detailed outlining and revision
  - Techniques for achieving clarity and precision in academic writing

### Day 2: Workshops (for Master 1, Master 2 and PhD Students)

Prospective participants are invited to provide their expertise on one of the following workshops. Each workshop will be repeated six times throughout the day, allowing all students to attend all six sessions sequentially.

1. **Topic Selection, Brainstorming, and Research Proposal**
  - Techniques for identifying and narrowing research topics
  - Developing a compelling research proposal
2. **Research Tools, Design, Data Collection, Analysis, and Interpretation**
  - Selecting appropriate research tools and methodologies
  - Strategies for effective data analysis and interpretation

### 3. The Abstract

- Crafting concise and informative abstracts
- Highlighting key findings and implications

### 4. The General Introduction and General Conclusion

- Structuring the introduction to set the stage for research
- Writing a conclusion that summarizes findings and suggests future directions

### 5. APA/MLA Referencing

- Understanding and applying APA/MLA citation styles
- Avoiding plagiarism through proper referencing

### 6. Research Presentation (Mock Viva & Viva Voce)

- Preparing for oral presentations and viva voce examinations
- Techniques for delivering confident and persuasive research presentations

We look forward to your participation in such enriching academic event, where we aim to foster a culture of excellence in scientific research and academic writing.
